

## RSS M-400 Live Mixing Console Update Instructions

Download the M-400 Console Software Update Version 1.10.

UnZip the downloaded file.

Copy the PRG file (M-400 update file) to a USB Memory Stick in the Root directory (not in a folder)

Boot the M-400 as normal and insert the USB Memory Stick.

Press "**System**" button and choose the System update by pressing "**F7**".

Press "**F8**" to start the update.

When the update is completed, reboot the M-400 Console.
